

Thiago Machado

Senior Full-Stack Developer | Backend & AI Systems

Python | Django | FastAPI | Vue.js | PostgreSQL | Cloud-native products

Valencia, Spain | thiagomachado.dev | linkedin.com/in/thiagomach | github.com/thiagoc-machado
thiagocmach@gmail.com | +34 653 579 325

Full-stack developer with 5+ years of professional software experience, focused on backend engineering, SaaS products and cloud-native systems. I build complete solutions from architecture and APIs to frontend delivery, deployment and observability. Recent work combines Python, Django/FastAPI, real-time systems, AI orchestration and practical business workflows.

CORE SKILLS

Backend: Python, Django, DRF, FastAPI, Flask, REST, GraphQL, Celery, WebSockets

Frontend: Vue.js, Vuex, React, JavaScript, TypeScript, HTML, CSS, Vuetify

Data: PostgreSQL, PostGIS, MySQL, MongoDB, Redis, SQL, NoSQL, ETL, data pipelines

AI & Automation: LangChain, OpenAI, Groq, xAI/Grok, Hugging Face, RAG, embeddings, NLP

Cloud & DevOps: Linux, Docker, Docker Compose, AWS, S3, EC2, RDS, Lambda, CI/CD, GitHub Actions, Azure DevOps

Infrastructure: RabbitMQ, MinIO, Airflow, Keycloak, Nginx, Grafana, Prometheus, Loki

Architecture: Multitenancy, clean architecture, SOLID, microservices, OAuth2, JWT

PROFESSIONAL EXPERIENCE

Ghenova | Backend Python Developer | Jun 2025 - Present

Python | Django | FastAPI | PostgreSQL/PostGIS | Airflow | MinIO | Keycloak | Celery | Redis | Martin | Azure DevOps

- Design and develop backend services and data pipelines for geospatial and data-driven platforms using Django, FastAPI, PostgreSQL/PostGIS, Airflow and MinIO.
- Build scheduled ingestion workflows, SQL data models, external data integrations and complex APIs for spatial data processing.
- Support authentication, deployment and observability with Keycloak, Docker, Azure DevOps, Prometheus, Grafana and Loki.

MagisMenu | Founder / Full-Stack Developer | 2024 | magismenu.com

Django | DRF | Vue | PostgreSQL | WebSockets | Redis | Docker | AWS

- Created and launched a production multi-tenant SaaS platform for restaurants.
- Built QR ordering, self-service kiosks, waiter tablets, kitchen/KDS screens and administration workflows.
- Designed product architecture, real-time order flows and deployment strategy from concept to production.

Voyc AI | Backend Developer | Apr 2025 - Jun 2025

Django | DRF | PostgreSQL | WebSockets | Celery | RabbitMQ | speech recognition

- Built backend services that streamed live call audio to speech-recognition systems.
- Processed transcripts, alerts and call events with low-latency asynchronous workflows.

Grupo Planeta - Aidea Legal | Full-Stack Developer | Mar 2024 - Mar 2025

Django | DRF | Vue | Vuex | PostgreSQL | AWS | Docker | OAuth2

- Developed and maintained a Dockerized legal automation platform with multitenant architecture.
- Delivered backend APIs, frontend features, CI/CD improvements and deployment planning.

Stocken Capital | Django Backend Developer | May 2023 - Jan 2024

Django | DRF | PostgreSQL | Celery | AWS | blockchain | Jinja

- Maintained financial backend services related to investments, payments and blockchain data flows.
- Developed APIs and business rules while improving stability and maintainability of a production system.

Freelance - Uvocorp / Fiverr | Full-Stack Developer | May 2021 - Jan 2026

Python | Django | Flask | FastAPI | React | Pandas | NumPy | scikit-learn

- Delivered web applications, automation tools and backend systems for clients across different domains.
- Handled data models, interfaces, deployment support and high-traffic application workflows.

SELECTED PROJECTS

bAible | Multilingual AI & RAG Platform

Multilingual conversational AI platform using semantic retrieval with embeddings and FAISS to ground LLM responses in relevant biblical content, with multi-provider AI orchestration and fallback.

[Django](#) | [GraphQL](#) | [Vue 3](#) | [Hugging Face](#) | [FAISS](#) | [Groq](#) | [DeepSeek](#) | [OpenRouter](#) | [Docker](#) | [Capacitor](#)

VideoGen | AI automation

Modular pipeline that turns an idea into a complete video with script, imagery, narration, subtitles, music and resumable processing.

[Python](#) | [Gemini](#) | [Whisper](#) | [FFmpeg](#) | [pipelines](#)

EDUCATION & CERTIFICATIONS

IBM AI Engineering Professional Certificate

IBM Skills Network | 2025 - Deep learning, LLMs, NLP, RAG, PyTorch, TensorFlow, Hugging Face and LangChain

Cloud-Native Development with OpenShift and Kubernetes

Red Hat | 2025 - Containerized application development, deployment, scaling and troubleshooting

Advanced Django: External APIs and Task Queuing

Codio | 2023 - Django REST Framework, Celery, Redis, caching, testing and external APIs

Django for Everybody

University of Michigan | 2023 - Django, Python, SQL, HTTP, authentication and security

Full Stack Software Developer

IBM Skills Network | 2022 - Cloud-native development, DevOps, IaaS, PaaS and SaaS

Introduction to Machine Learning on AWS

Amazon Web Services (AWS) | 2023 - Machine learning, deep learning and AWS ML services

Industrial Computing

ETEP Centro Universitario | 2000 - Assembly, C++, Pascal and databases

LANGUAGES

Portuguese: Native | Spanish: C2 | English: C1 (EF SET)
